

The signs of a successful career

Take responsibility for your driving – keep within the speed limits

The pressures of everyday working life, such as deadlines, timetables and appointments, can make you want to drive faster than the speed limit dictates – but speeding in order to save a few extra minutes isn't worth it!

If you drive at higher speeds you have less time to react to what is happening around you and it will take you longer to stop the vehicle. This means you are more likely to be involved in a collision.
