Certificate of Verification

CERTIFICATE NUMBER: V201508000161 - 625 - 20190129

Type/model:
Red Light Camera type 36

Set serial number: 625
Sensys Gatso object code: 201508000161

Date from: 29 January 2019

Date to: 28 January 2020
Calibrated by: HeOn

The SGG equipment subject to this certificate has been tested by manufacturer Sensys Gatso Netherlands using equipment traceable to standards.

Table 1 shows the equipment used for measuring and testing:

ID	Description	Serial number	Type
1398	Handheld DMM	98950160	Fluke 175
1357	Timer / Counter	SM713	PM6665
1302	Handheld DMM	61650069	Fluke 73-II
1358	Timer / Counter	SM791815	PM6666

Table 1 Calibration test equipment

Table 2 shows a summary of the results recorded during this verification test:

Description	Result	Tolerance
M-proc. PCB test 1 MHz	999.984 Hz	Min: 999.970 - max: 1000030 Hz
M-proc. PCB freq. CAL 2 256	256.001 Hz	Min: 255.980 - max: 256020 Hz

Table 2 Summary of results

The verification tests summarized in table 2 meet the tolerance for the equipment subject to this certificate; the device is hereby certified to measure within the stated tolerance of the device throughout its specified range.

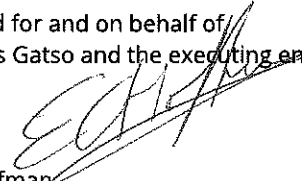

Statement of conformity

This device conforms to the device specification as per the Home Office Type Approval for: The Light Signals (Detection of Offences) Devices Approval 1992.

Any components, if required, used in repair and maintenance are identical to those in the schedule.

Signed for and on behalf of
Sensys Gatso and the executing engineer:

Date: 29 January 2019
